Latest PMBOK Edition based Exam Preparation Course

Course Fee: SR 5,250

5 Days | 5:00 – 10:00 PM | Duration: 35 PDU's

Introduction:

The Project Management Professional® (PMP) certification is awarded by the Project Management Institute® (PMI) to recognize individuals who have obtained knowledge and experience in project management. The purpose and goal of PMP certification program is the development, maintenance, evaluation, promotion, and administration of a rigorous, examination-based, professional certification program of the highest caliber. Every year more companies recognize the importance of the PMP certification and the achievement it represents.

In our training, we cover Project Management terminology, methods, principles, processes, tools, inputs and outputs. For exam preparation, more than 2,000 concepts are discussed and explained in the 35 hour training. *The PMP sets you apart as it is the most valuable certification today.* **Send your query for course outline.**

Objectives:

The primary objective is to help candidates to prepare for the exam and put them on the right track to pass the exam in the first attempt. The course enable candidates to understand the Project Management in the light of PMI® guidelines and not what is understood and implemented locally. This training covers all Five stages of project and Nine knowledge areas as defined in PMBOK® 4th Edition.

Who Should Attend?
